Education

•Malaviya National Institute of Technology, Jaipur *2023-2027*
B.Tech in Computer Science and Engineering

•St. Patrick's Sr. Sec. School, Jaunpur *2022*
CBSE Board (Class XII) CGPA/Percentage: 93.8

Personal Projects

•AI Finance Platform – Full Stack Web App
Developed a full-stack AI-powered finance platform that delivers intelligent financial insights and personalized assistance.
- **Tools & Technologies:** Next.js, Tailwind CSS, Gemini AI, Prisma, Shadcn UI, Clerk, Inngest, Arcjet.
- Implemented AI-driven chat interface for financial queries and personalized dashboards using Gemini AI.
- Automated monthly email reports and spending alerts to enhance user engagement and financial awareness.
- Integrated Clerk for authentication and Inngest for event-driven backend workflows such as email notifications and spending alerts.

•College Fest Website – Blitzschlag25
Designed and deployed a high-performance website for the annual college fest featuring live schedules, registrations, and real-time updates. Integrated 3D interactive models to enhance user engagement.
- **Tools & Technologies:** React, Express, Firebase, Three.js.
- Implemented scalable REST APIs and optimized backend queries, reducing page load time by 40%.
- Implemented 3D models for animative and more immersive UI experience.

•Movie Ticket Booking Website – MERN Stack Project
Built and deployed a full-stack movie ticket booking platform with user and admin interfaces. Implemented seat selection, payment integration, and booking management using modern web technologies.
- **Tools & Technologies:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Stripe, Clerk.
- Designed responsive UI with React and Tailwind CSS, including homepage, movie listings, and booking flow.
- Implemented secure user authentication and role-based access using Clerk.
- Developed backend APIs for movies, shows, bookings, and user history with Express and MongoDB.
- Integrated Stripe for payment processing and webhook handling to confirm transactions.
- Built admin dashboard for managing movies, showtimes, and viewing booking analytics.
- Added email notifications for booking confirmations and reminders.

Technical Skills and Interests

Languages: C++ | C | Python | JavaScript | TypeScript
Developer Tools: Git, GitHub, Docker
Frameworks: React, Node, Express, Three.js, Next.js
Cloud/Databases: AWS, SQL, MongoDB, PostgreSQL
Soft Skills: Problem Solving, Teamwork, Communication
Coursework: Data Structures and Algorithms, Object Oriented Programming, Databases
Areas of Interest: Competitive Programmig, Web-Dev, Blockchain

Positions of Responsibility

–**Executive,** Blitzschlag'25 Team *Oct'24 - Feb'25*
–**Executive,** Infosec Club *Aug'24 - Apr'25*

Achievements

–**6th Place, Web-a-thon (MNIT Jaipur, 2024)** 8th Nov '24
Develop an advanced CAPTCHA system leveraging machine learning to improve user experience and bolster security against simulated bot attacks.
–Achieved 98% accuracy using Gradient Boosting Model
–GitHub link

–**Specialist on Codeforces, 3-Star on CodeChef, and 1800+ on LeetCode**
Achieved Global Rank of 577 in Codeforces Round 1050 and Global Rank of 190 in CodeChef Starter 208.
–</> Codeforces Profile | </> CodeChef Profile | </> LeetCode Profile

–**Semi-Finalist, Flipkart GRiD 2025** 2025
Selected as a Semi-Finalist in Flipkart's prestigious GRiD 2025 national-level tech competition
